

ST JOHN'S NEWFOUNDLAND.

11
4. October 1898.

This is to certify that we the undersigned surveyors have this day completed our final survey on the S.S. Strathleven of Glasgow, 2436 tons gross, for damage sustained in consequence of tail end shaft breaking whilst on a voyage from Fowey, England, to New York, and whilst under repairs at this port.

And that all repairs recommended by us have been carried out to our satisfaction, and that we would recommend this ship be maintained in the same class as formerly, and that she is now in a fit state to carry dry and perishable cargo.

Signed

Geo. J. ...
