

New York,  
11<sup>th</sup> July 1897.

The undersigned having  
examined the Screw Steamer  
"Strathmore" of Glasgow, 2463 tons  
while on dry dock at Brooklyn  
New York, found the bottom and  
all other parts below the water  
line in a satisfactory condition,  
and further certify that one  
of one of the propeller blades  
was replaced by new.
