## Particulars of Repairs and Examination

*Damage to Tailshaft*

(State clearly the cause of Repairs if any, and in detail, the nature and extent of Examination and subsequent Repairs. Repairs on account of Damage should be separated from Repairs due to other causes. State also the dates and initials of any letters respecting this case.)

The tailshaft was found to be broken close to the propeller and the propeller was lost. The crankshaft and intermediate shaft were found to be bent. A new tailshaft, a spare propeller and new bush in stern tube have been fitted. The crankshaft and intermediate shaft have been straightened and turned true.

*It is submitted that this vessel is eligible to remain as classed*  
*M 15/12/85*

## General Observations, Opinion, and Recommendation:—

(State clearly what alteration, if any, is suggested to be made in the existing notification of the vessel's machinery in the Register Book, consequent upon this survey.)

The machinery of this vessel appears now to be in a safe working condition and is in my opinion eligible to remain as classed.
