The Secretary

London

Sir

In reply to your letter of the
24th inst respecting the Donkey Boiler of the
S. S. "Lizzie & Annie", I have respectfully
to state, that, the Donkey Boiler is onshore,
as stated in my Report where I state "had
it taken ashore" in three places, and where
I state "the vessel is now sailing without a
donkey boiler". The reason why I state the
safety valve adjusted to 50 lbs is owing to its
being a Lever valve which does not require
to be adjusted to the pressure under steam.
I am.

Sir.

Yours obedient servant.
