

12 OCT 1932

M.S. "LIZZIE & ANNIE"

-----

The Hull Surveyors now report that the old engine has been removed and a new 2 S.C.S.A. heavy oil engine having 2 cylinders  $9\frac{7}{8}$ " dia. by 13" stroke has been fitted on board.

The new engine was not built under special survey but has been opened out, examined and found in good condition and in accordance with the approved plans, and afterwards tested satisfactorily under working conditions.

IT IS SUBMITTED that this vessel is eligible for the record LMC 9.32 NE 9.32, subject to a permanent starting air receiver being fitted and the approved spare gear being placed on board.
