Loadline Certificate expired 11.9.60 (Not required whilst vessel working in Whitby Harbour).  
Screwshaft Survey due 7.59 (assignment of record TS OG 10.59 withheld for special examination of screwshaft in way of oil gland).  
Last examination in drydock 10.59.

g items  
held)

For record SS (Dr) 10.59:- See Hull Rpt.65421.  
Hull subject:- See endorsement 29.6.60 (by completion of SS).  
Machinery limit by 9.60 deferred until early January, 1961:- See endorsement 24.11.59. (TS record withheld meantime).

ents  
agreed

Postponement of completion of Special Survey until 9.60 (12 months after due date) approved 1.12.59 (GE Hull 10.59). Further postponements beyond the year of grace whilst the ship is working within the limits of Whitby Harbour approved 30.9.60, 17.2.61 and 8.6.61; on the latter occasion after reference to the Middlesbrough Surveyors.

sal

The Owners now write that almost continuous swell conditions have prevented their divers from completing the concrete works in Whitby Harbour. At the moment the ship is vitally necessary for the work but they are optimistic that the ship will be available for survey by the end of September next.
