It is submitted that the record in the  
Register Book be now altered back to  
90 lbs.

Also that the Barrow Shipbuilding Co  
be informed that by an error the pressure  
of the new boilers was reported to be 80 lbs per  
square inch instead of 90 lbs, and that  
the record of 90 lbs will now be made.

Also that Mr Kinghorn be informed  
that his want of carefulness in making  
out his report has caused great  
inconvenience and that it is hoped  
he will be more careful in  
future.
