

No. 87

Ply 3789

Plymouth

16 March 1877

Wm. E. Taylor

Messrs. Wether Phillips & Co. Agents for
the service examine the Iron Works "Walsingham".
The Iron Works of Walsingham, W. Palmer Master, is a station
the nature and extent of damage (if any)
sustained by vessel through touching the
S. Helen's Wh. Victoria Reg. whilst on a
passage from Portland to Plymouth, for further
particulars of which see ship's log book and
master's report.

16 March 1877 and Subsequently.
Vessel being in the Great Western Wh. dock
Plymouth for examination, sighted the hull and
bottom and found all satisfactory and in
order. The inside examination in fact of the
examined and found in sound condition and
satisfactorily adhering to the iron.
