Callao

17 May 1898

Sirs,

I beg to confirm my letter of the 8th March re the tank steamer "Bakuin". The repairs executed to the boilers are now finished. The Engineer Surveyor, M^r J. Russell, appointed by M^r Elster through me, has made his final survey and I now forward you his report. As stated in my letter of the 8th March, you have omitted it appears, to send the usual printed forms for survey reports, so the surveyor has made his report in his own way. No survey has been held on the hull of this steamer.

Capt F. White, master of the "Bakuin" has requested me to ask you to send the certificate of classification to the owners the European Petroleum Company Ltd Dock House, Billiter Avenue, London E.C.

I remain Sirs

Your obedient servant.
Edw Geo Playoult

Messrs The Committee of Lloyd's
London.
