S.

7th August, 1900.

Dear Sirs,

I duly received your letter of the 3rd instant, respecting the case of your steamer "BAKUIN", and having submitted the same to the Committee at their meeting this day, I am directed to acquaint you that they have decided to further defer action in the matter to admit of arrangements being made for the Special Survey No.3 being held without delay, but in view of this survey being now so very long overdue, it must be held before the 31st October, or the Committee regret they will have no other alternative than to expunge the vessel's class.

They therefore trust that you will be so good as to arrange to have the survey held without fail before that date.

I am, Dear Sirs,

Yours faithfully,

Secretary.

Messrs. The European Petroleum Company (1900) Lim.,

Dock House,

Billiter Avenue,

E. C.
