# Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.

26th May 1915.

Encs.

Dear Sirs,

With reference to the enclosed reports on the steamer "BAKU STANDARD", I have to acquaint you that the Owners called at this Office to-day and stated that in accordance with the wishes of the Admiralty they have arranged for the vessel to be docked in the Tyne tomorrow and that the boilers will also be opened up for cleaning.

They add that this steamer has been chartered by the Admiralty and they do not know when they will be in a position to complete the Special Survey No.2. They will however communicate further with this Office on the matter.

I have therefore to request that you will give the case the necessary attention.

The enclosed documents should be noted and returned to this Office in course of post.

I am, Dear Sirs,

Yours faithfully

The Surveyors,

Newcastle.

Secretary.
