

Swan Hunter & Wigham Richardsons  
Is No. 735.

---

It is submitted Messrs Swan Hunter & Wigham Richardson & Co. should be informed in reply to their telegram of 27 June relating to the thickness of floor plates under boilers in their 760 ft vessel building for the Cunard Co. that provided the floors under the boiler stools be increased from  $\frac{10}{20}$  in to  $\frac{12}{20}$  in thickness as proposed by them, their proposal to make the remaining floors under the boilers  $\frac{10}{20}$  in thickness will be approved provided they be carefully coated with bituminous enamel or other protective paint.
