Dear Sir,

CUNARD EXPRESS STEAMER.

TRANSVERSE WATERTIGHT BULKHEADS.- We have the pleasure to hand you herewith two photographs in duplicate shewing the proposed stiffening of the forward bulkheads. We shall be obliged if you will examine these at your earliest opportunity and inform us if you see any way of reducing the weight, and with this object we have marked on the height to which we calculate the water will rise when any two compartments are flooded, the vessel being otherwise in the most unfavourable trim.

We are, dear Sir,

Yours faithfully,
