Dear Sir,

EXPRESS STEAMER No. 735.

CURVE OF BENDING MOMENTS.-

As requested we have the pleasure to hand you herewith a diagram showing the curve of bending moments and stresses. The diagram has been revised to the latest weights received from the Engineers and to the latest arrangement of stowage of cargo, coals, &c. You will observe that the maximum bending moment is slightly higher than that previously quoted, viz: 973,000 ft. tons under the conditions noted on the diagram.

SECTION OF CHANNEL BEAM.- We enclose a full sized section of the 8" channel beam which we propose rolling for this Vessel and shall be pleased to learn that it meets with your approval.

Yours faithfully,

For
