

# Lloyd's Register of British & Foreign Shipping,

Collingwood Buildings, Newcastle-on-Tyne.

Reference

26th November 1904.

G C Vaux Esq,

The Surveyors,

S W A N S E A .

Dear Sirs,

With reference to your letter of the 25th inst, respecting hollow tube pillars ordered from the British Mannesman Tube Co for Messrs Swan Hunter & Wigham Richardson's No 735 Cunard Express Steamer, so far as we are aware no arrangements have been made for any special tests for this material.

I think it would be advisable to ask the London Office what tests should be applied to these tubes as I understand Mr Cornish has some tests made on them at the company's works.

Yours faithfully,

*E. B. Chambers*
