LONDON.REC<sup>d</sup> 25 APR 1907ANS<sup>d</sup>The Secretary  
London

Sir

In reply to your letter of 23<sup>rd</sup> inst. re. freeboard report of "Mammetania", I beg leave to state that the length on load line from fore side of mainmast head to fore side of stem is 760'-6½". The length given on my report is the total length of hull on load line.

The tonnage under upper deck is 19,862.78, & I regret that the tonnage under shelter deck was given in my report instead of that under upper deck, & that the coefficient of fineness was computed with this wrong tonnage as a basis. A signed request form is enclosed.

I am, Sir,

Your obedient servant

A. Campbell
