

11th August 1888.

Dear Sir,

With reference to the classification in this Society's Register Book of your steamer "Lanier", I am directed to acquaint you that it appears from a report received from the Society's Surveyors that this vessel was found in a defective condition but has not been repaired as recommended, and under these circumstances the Committee regret they have no other alternative than to mark the vessel's character with a black line thus , indicating that at that date, the vessel from whatever defects was not entitled to a character in the Register Book.

Yours truly,
