+ N 3 12.89 S.S. 12, 13.

Survey due 4<sup>th</sup> S.S. No. 3 due April 1914.

Boiler Survey due December 1914.

This case last received the consideration of the Committee in January last when the Owners' proposal to postpone the Fourth S.S. No. 3 for two or three months was agreed to subject to the survey taking place within the year of grace.

The Owners now write that owing to the great scarcity of men and dry docks they will be glad to know whether the Committee can see their way to allow this steamer run for the present. Their Engineers will keep in touch with the Society's Surveyors and see that the boat is kept up to the necessary requirements for safety.
