

A.

18th Sept. 1899.

Gentlemen,

I am in receipt of
your letter of the 17th inst.
respecting the present survey
of the Composite Ship "Lander".

As I understand the
Owner is desirous of deferring
the repair of the vessel
until she becomes due
for special periodical
survey. I have to request
that Mr Dodd will join
Mr Davidson in holding a
survey on her, with a view
to reporting what, in their
opinion, should be the
minimum requirements as
to repair to make the vessel
efficient until her return
from the voyage contemplated,
in the event of the Committee
seeing their way to meet
the Owner's wishes in

the matter.
I return the Lon.
note No 460212 for your
guidance. When please
return with your reply.

Yours faithfully,
A. J. Daykin
Aust. Secy.

Yours sincerely,
Glasgow.
