Last Report, No. 5390 Port Antl

(Particular Survey, when held, must be reported in detail and narration in the terms of the Rules. State clearly the cause of Repairs, if any, and, in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage (the cause of which must be stated) should be separated from Repairs due to other causes; and besides being detailed in the body of the report, should be summarized in the form shown below. Whenever the replacement of Anchors, Chains, or Mooring is reported, the particulars of weight or size and test of the articles should be clearly stated, and also the weight or size, etc., required by the Rules, together with the vessel's Equipment Letter, if any. State also the dates and initials of any letters respecting this case.)

In damage cases where the Surveyor has not made a special damage report he is required to state whether he offered his services for this purpose, and why they were declined? _____ also whether any damage report was made, and, if so, by whom?

General Observations, Opinion as to Class, Recommendation, &c.:—

State clearly whether any and, if so, what alteration is suggested to be made in the existing classification and notification of the vessel in the Register Book consequent upon this survey, thus, for example:—"to remain as now classed in the Register Book without fresh record of Survey," "to remain as classed and to have record of survey, 1.03, or "to remain as classed and to have record of survey, 1.03, and the notations of No. 1-98 and 1-99, &c."

This vessel is now in good condition & eligible, in my opinion, to remain as classed with fresh record of survey 1.03
