GLASGOW

GLASGOW,

4th December, 1935.

H. McQUEEN,

Messrs. Stewarts & Lloyds, Limited, attend at their Tollcross Works on the 29th November, 1935 for the purpose of inspecting and testing 8 Hot Rolled Weldless Steel Tubes as detailed on attached signed advice note to the order of Messrs. Cammell, Laird & Co., Ltd., Birkenhead and intended for their Repair Job "ARANDORA STAR", order No. R.47717.

Samples were cut from the tubes and subjected to tensile, expanding, crushing and flattening tests with satisfactory results.

The material has been manufactured in accordance with the requirements of the Society's Rules.
