

# Lloyd's Register of Shipping,

23, Wielandstrasse,

Winterthur, 13<sup>th</sup> February, 1929.

Enclosures.

Dear Sir,

I enclose herewith Winterthur 1<sup>st</sup> Entry Report No. 93 covering the machinery manufactured by Messrs. Sulzer Bros. for Messrs. Mitsubishi Dockyards Yard No. 450. The vessel is named "Asama Maru", and is building to the order of Messrs. Nippon Yusen Kaisha.

A list of spare gear to be supplied is also enclosed, and I shall be obliged if you will forward these documents to the Nagasaki Office for their information and completion.

I beg to advise you that five of the nine 4 H.P. crank shafts supplied for these engines have been condemned by the Owners on account of the dowel pins being fitted 70 mm. diameter instead of 40 mm. These shafts will be replaced by five shafts taken from the engines building by Messrs. Mitsubishi Dockyards for their ship No. 451.

I beg to inform you that Messrs. Sulzer Bros. are not responsible for fees for fitting these engines on board.

Yours faithfully,

W. G. Galloway

33, Whitehall, London

Whitehall, 13th February, 1929

RECEIVED  
LLOYD'S REGISTER  
15 FEB 1929  
LONDON

Dear Sir,

I enclose herewith the report of the surveyors covering the machinery and hull of the vessel "The Waverley" built at Glasgow, Scotland, and in building to the order of the Messrs. Waverley & Co. Ltd.

A list of repairs to be undertaken is also enclosed and I shall be obliged if you will forward these documents to the Registrar of Shipping for their information and completion. I beg to advise you that the surveyors have been instructed to inspect the hull and machinery of the vessel and to report on the condition thereof.

15 FEB 1929

Referred to the Chief Engineer Surveyors

I beg to advise you that the surveyors have been instructed to inspect the hull and machinery of the vessel and to report on the condition thereof. I am, Sir, very respectfully,  
Yours faithfully,
