Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

30th March, 1931.

Dear Sirs,

E. With reference to Newcastle First Entry Machinery Report No. 86948 on the Motorship "AGNITA", I have to say it is concluded that the margin stays of the donkey boiler are nutted, and that the longitudinal seams of the acid tanks are double riveted, double buttstraps, but I shall be glad to receive confirmation thereof in due course.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

NEWCASTLE/ON/TYNE.
