

EXPRESS MAIL.

Enclosure.

6th March, 1933.

Dear Mr. Turnbull,

I am favoured with your letter of the 4th instant, returning the First Entry Machinery certificate for the "CONTE DI SAVOIA", and have had a fresh certificate prepared with the Boiler Pressure shown thereon as 425 lb. per square inch (30 Klbs. per Square Centimetre).

This is being sent by Express Mail as desired, and I trust it will reach you in good time to enable the same to be placed on board the vessel before she leaves on Thursday next.

Thanking you for your attention, and with kind regards,

Yours faithfully,

N. G. Turnbull, Esq.,

GENOA.
