

Lloyd's Register of Shipping,

Via Mazzini No. 9,

Trieste (III), 3rd January 1933.

Casella postale No. 2.

Dear Mr. Ward,

I am forwarding today officially a sketch showing the disposition of all double bottom compartments and deep tanks in the "CONTE DI SAVOIA", also a sketch giving the length of the superstructures measured over the full extent of the shell plating.

By examining the double bottom capacity plan you will notice that the wing compartments Nos. 21, 22, 23 & 24 are carried to within the double bottom; this, I think, accounts for part of the 2000 tons difference in capacity with respect to the "REX".

With kindest regards,

Yours faithfully,

R. J. L. Ward Esq.,
LONDON.
