Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.3.

27th August, 1936.

Dear Sirs,

T.S.S. "AWATEA".

E. I duly received your letter of the 21st instant, and with regard thereto, have to acquaint you that, for the machinery of the above vessel, the plan No.2522A/81B.G. of pinions and gear wheel forgings will be approved.

It is noted that the S.H.P. of the H.P. and I.P. Turbines is to be 3487 each and of the L.P. turbine 4275, instead of H.P. and L.P. 3500 each, and L.P. turbine 4250 as originally.

The plan is returned herewith, and I shall be glad if you will furnish me with two verified copies for the guidance of the Society's Surveyors at Sheffield and for reference in this Office.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,

Secretary.

BARROW-IN-FURNESS.
