THE SHELL COMPANY
of
QATAR LIMITED

File No. 055/8
Letter No. 4536

3rd September 1955.

Lloyd's Register of Shipping,
Box 99,
Doha.

Dear Sir,

Pontoons S.Q.9 and S.Q.10

We thank you for your letter of the 23rd August, but, this was the first intimation that we had had that anchors and cables were supposed to be supplied, none have been ordered.

Anchors and cables are not required for them during their normal service as they are always at moorings. There is an emergency anchor on each pontoon weight and particulars unknown, and when under test a five ton anchor attached to 4½" wire will be placed on board.

However, should you require standard equipment to be placed on board we shall be pleased to order it if you let us know your requirements.

Yours faithfully,
for: THE SHELL CO. OF QATAR LTD.,
