7th December, 1962

Dear Sirs,

Diesel Electric Train Ferry  
'Aramoana'

DISCLOSED  
SECTION

I am in receipt of your letter of the 20th ultimo regarding the shaft horsepower recorded on the Machinery Certificate returned therewith. The error is regretted and an amended Certificate is enclosed.

With regard to the second paragraph of your letter I note your surprise at receiving the Certificate in the first place. In accordance with our usual practice it was sent through our Liverpool Office to your Preston Works where the machinery was made and they apparently sent it to you.

In view of your note is being taken care to forward direct to shipbuilders, Machinery Certificates which would normally be sent to your Company. Accordingly, the Certificate for the Diesel Electric ship "MERCURY" which has now been prepared forwarded to our Liverpool Office for sending to Cammell Laird & Co. Ltd.

We shall be glad if you will confirm that we have your wishes for future cases.

Yours faithfully,

Ltd.,

Deputy Clerk to the  
Classification Committee
