

Shipbuilders: SS. "EMERALD"  
~~Messrs.~~

Nº 23114 in Register Book  
~~Yard No.~~

Engineers: Messrs. Harland and Wolff.

Engine No.

EARLY REPLY.

It is submitted the Firm be informed that with steam reciprocating machinery having particulars as stated in the Society's Register Book and a propeller 9 ft. 6 ins. diameter the following size of screw shaft, fitted with a continuous liner, merits approval viz:-  $8\frac{7}{8}$  ins. diameter.

The plan No. 9683 showing details of the screw shaft also merits approval provided the radius of the fillet at the coupling be not less than 1", and the shaft be made and tested in accordance with the requirements of the Rules.

Return one plan.

Aduse London Outdoor Surveyors with copy of plan.  
Retain copy.
