# Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

Enclosures.

2nd March, 1922.

Dear Sir,

With reference to Glasgow First Entry Report No. 41720  
8. on the Steamer "CONTE ROSSO", I have to acquaint you that it  
is concluded the topside plating is doubled at the ends of  
the erections as approved; that the thickness of the sheerstrake  
in way of the sidelights has been approved and that three  
hand pumps and two Downton pumps are fitted as shewn in the  
plan of pumping arrangements, but I shall be glad if you will  
kindly ascertain from the Surveyors and let me know if this is so.

At the same time I shall be glad to learn the water  
capacity of the double bottom tanks in way of the oil fuel  
bunkers if these may be used for ballast.

It is also concluded that the consent of the Owners  
has been obtained to the deviations from the Rules as required,  
but I shall be glad to hear from you on this point.

The classification certificates are enclosed  
herewith, as desired in your letter of the 28th ultimo,  
and should be handed to the Builders if the case is in order.

I am, Dear Sir,  
Yours faithfully,

The Secretary,

GLASGOW.
