Ans. 5/9
LONDON

Dear Sir,

Reference

E.

I have visited the Works of Messrs. Escher Wyss & Co., Zurich, this week and found they have the forgings and steel castings for two primary turbines of 1250 H.P. each, working at 125 Ats. and 44 Ats. respectively in conjunction with a Loeffler boiler building by Messrs. Witkowitz.

The turbines are for the "Conte Rosso" and are intended to increase the power on each shaft by 1250 H.P.

The order has been placed with Messrs. Escher Wyss & Co. by Cantieri Riuniti dell'Adriatico, and I am informed by Messrs. Escher Wyss & Co. that plans have been supplied to Cantieri Riuniti dell'Adriatico and that they are of the opinion that these plans have have been submitted to the Society and have been approved. I shall be obliged if you will confirm this information and state if the matter is in order.

Further Messrs. Escher Wyss & Co. inform me that they have been instructed to call in the German Lloyd's Surveyor to test the materials on behalf of Registro Italiano, and I shall be pleased if you will let me have any remarks you may care to make on the matter.

I am, Dear Sir,

Yours faithfully,

The Secretary,
London.
