Lloyd's Surveyor.

We acknowledge receipt of your letter of the 12th instant. We are of course prepared to show Representatives of Lloyd's over our Loeffler plants in operation as well as to give them any information they may desire.

We should like to take this opportunity of mentioning that the Vienna Representatives of Lloyds, Chief Inspector Kolbow and Inspector Jung are well acquainted with our plants and likewise the Loeffler boiler.

A visit to the Trebovice and Caroline Pit plants can take place at any time without special formalities.

Yours faithfully,
