Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

16th March, 1936.

Dear Sir,

E.

I have to acquaint you that a question has been raised regarding your Certificate, dated 22nd February, 1936, relating to one cast steel water regulating valve of 60 mm. diameter intended for the Loeffler Boiler and Escher Wyss Turbine Installation of the s.s. "CONTE ROSSO".

It appears from the Certificate that the cast steel valve chest was made by a Firm which is not on the approved List, and it is therefore considered this valve should not have been accepted.

In the circumstances, I have to request that you will furnish me with your remarks on this case by return of post.

I am, Dear Sir,

Yours faithfully,

Secretary.

N.A. Stolte, Esq.,

STETTIN.
