Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

1st November, 1935.

Dear Sir,

s.s. "CONTE ROSSO".  
Loeffler Escher Wyss H.P. Installation.  
-----

E.

I duly received your letter of the 23rd ultimo, with enclosures advised therein, respecting the above installation, and with regard thereto I note that material tests have been carried out on test pieces cut from forgings, including the pinions and gear wheels for this installation.

With reference to the circulating pump shaft and cast steel casing, the particulars of test results obtained by the Makers, as shown on the photostatic copies of test sheets forwarded with your letter, are satisfactory and these parts can therefore be accepted.

I may add that the Forging Report No. F.867 mentioned in your letter does not appear to have come to hand.

I am, Dear Sir,

Yours faithfully,

W.G. Vallis, Esq.,

WINTERTHUR.

Secretary.
