Hamburg, 12th August 1911

Admiralitätsstrasse 52.
Steinhöft 3.

LOYD'S REGISTER

LONDON.

RECEIVED 14 AUG 1911

Sir, 14

Enclosed I beg to hand you
the Machinery Certificate of the new
steamer "Adelaide", Main. No. 12206,
to which the owners take exception, as
they do not desire to have the smaller
Main Boiler styled as an auxiliary boiler.
Kindly send a new Certificate to
this Office, in which no mention is
made of an auxiliary Boiler.

Likewise the owners desire that
the entry in the Register Book with
regard to Boilers only states: 4 S.B.
with total Heating Surface. I hope
this can be altered in the present of
Supplement 3.

I am,
Sir,

Yours obedient servant
M. Berendt

Secretary,
Lloyd's Register
London.

referred to Mr. Mayne.

+ Mr. Wood

returned certificate destroyed J.M.W.

It is submitted that a new certificate should be prepared in which all four boilers should be recognized as main boilers

Also that the record in the Register Book as regards the boilers should be 4 S.B. 10499 H.S. 247 G.S. F.D. 185 lb.
