Lloyd's Register of British & Foreign Shipping,

71, Fenchurch Street, E.C.

ENCL.

24th July, 1911.

Gentlemen,

M.

I have to return herewith Mr. Dykes' First Entry Report No. 12206 on the new steamer "ADELAIDE" recently built by the Flensburg Shipbuilding Co. and to request that he will be so good as to state if he is correct in reporting the thickness of the centre girder top angles as .48" and the thickness of the flat plate keel butt straps as .7" and .64" in view of the requirements of the Rules.

I shall also be glad to learn if the steel has been tested as required by the Rules, and the length of the double bottom tanks should be stated in the space provided in the report.

I am, Gentlemen,

Your obedient servant,

The Surveyors,

HAMBURG.

Secretary.
