

COPY.

16th March, 1939.

Warlow,

We have just posted the First Entry on  
Robertson's new motorship "CITRENE", built in Holland.  
The blue form (GR 130) giving the details of her British  
Registry shows only an IHP of 825 and no NHP, which by the  
ET formula I estimate should be 74. We have therefore no  
option but to post the Society's NHP of 144 until such time  
as the official NHP figure is received from the Registrar  
General's office.

I thought you might like to know of this,  
in case you considered it worth while taking up the matter  
with the Owner.

With kind regards,

Yours sincerely,
