GLASGOW REPORT No. 49958

Port GLASGOW,

19th December, 1929.

This is to Certify that

G. E. MURDOCH,

the undersigned Surveyor to this Society did at the request of Messrs. Babcock & Wilcox, Limited of Renfrew attend at their Works at Renfrew on the 30th May, 1929 and subsequent dates for the purpose of inspecting and testing steel steam and water drums, sections, muddrums and superheater boxes under Job No. 6/1251, to the order of Messrs. Workman, Clark (1928) Ltd., and intended for the S.S. "LA MAREA".

The steam and water drums, sections, muddrums and superheater boxes were tested by hydraulic pressure to 650 pounds per square inch and satisfactorily withstood the test.

Mechanical tests of steam drums, headers, muddrums and superheater boxes are in accordance with the Society's Rules.

Sample header and muddrum, door and bridges were subjected to crushing and bending tests and satisfactorily withstood the test.

G. E. Murdoch.

Surveyor to Lloyd's Register.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—

"While the Committee use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Committee nor the Society are under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default, or negligence of the Surveyors, or other Officers or Agents of the Society."
