Reference

Dear Mr. Mayne,

The first entry reports on the S.S. "LA MAREA" built by Messrs Cammell Laird & Co. Ltd were forwarded yesterday and Mr. Laird is very anxious about having the classification certificates in duplicate on Friday, as the vessel sails on Saturday morning.

I have of course drawn attention to the fact that the classification fees should be paid before certificates are handed over and am assured that the account will be passed for payment without any undue delay.

In the circumstances I trust that it will be possible to meet the Builders wishes with regard to the handing over of the classification certificates.

With kind regards

Yours sincerely.

F.A. Mayne, Esq
