... P.T. BROWN ...

Messrs. Richardsons, Westgarth & Co. Ltd., attend their Works at Middlesbrough on various dates, for the purpose of surveying during construction - two starting Air Receivers intended for their Contract No. 2575 (to be fitted in the s/v "GULFHAWK").

These Air Receivers are of good material and workmanship and have been constructed in accordance with the Rules of this Society for a working pressure of 600 lbs per square inch. On completion they were tested by hydraulic pressure to 800 lbs per square inch with satisfactory results and, for the purpose of identification, have been marked:-
