The Secretary,

Lloyd's Committee on Printing Machinery
—LOYD'S REGISTER
LONDON. London

REC'D 26 MAR. 1902

ANSR 27 Mr. Sls

Dear Sir
We recently supplied
the Ailsa Shipbuilding Co. - Ayr
with a cable for their 12' 6" 5, the
particulars of which are as follows:-

Calypso 12' 33600. 210 fms 5 feet
17/16 Stud - with 12 forming and 4
Anchor Bunches, Weight 185. 2. 14.

002062-002070-0180

from this you will see that the
weight is up to your scale but
that the chain is 5 feet in excess
of the length required, having
stretched slightly ^{in the testing} more than we
anticipated - The builders
having raised a question about
this and requested us to write
you on the subject, we beg to ask
if you will give your permission
for this slight difference to be
allowed and we shall be glad
of your kind reply as early as
possible -

Yours faithfully
Geo Hartshorne & Co.
