Surveyor(s) at HULL

Date: 18th December, 1950.

Name: S.S. "HOLDERNIDD"

QUESTION.

ANSWER.

With reference to your Report 8 No. 56964, I shall be glad if you will be good enough to remind the Owners that the period of grace allowed for the completion of the Annual Loadline Survey will expiry on the 6th proximo, and let me know what arrangements they propose making to carry out this inspection together with the additional requirements of the Annual Classification Survey, and ~~the repairs to the stem and stem plating.~~

At the same time I think it well to point out that the Boiler Survey will become due at the end of the present month.

Date:— 20th December, 1950.

In reply we beg to inform you that this vessel is now undergoing Boiler Survey at Grimsby.

The Owners state that arrangements are being made for the Annual Loadline and Annual Classification Surveys to be held at a Humber Port late this month.
