

Copy of Letter from N. Bugge, to  
(Messrs Bushell, Nicol & Co., Newcastle).

April 4th, 1919.

s.s. No. 345.

Owing to the requirements of the trade the above vessel is intended for, it would be of great interest for us to obtain Lloyds permission to dispense with one watertight bulkhead in the fore tween deck and one watertight bulkhead in the after tween deck. Thus there should only be one watertight bulkhead in the fore tween deck and none in the after tween deck. Please apply to Lloyds for their dispensation as above, and inform the Builders Messrs. Robt. Duncan & Co., Ltd., Port-Glasgow.

(Signed) N. Bugge.
