

31 AUG 1934

Lloyd's Register of Shipping.

INTERNATIONAL CONVENTION 1930 RESPECTING LOAD LINES.

RENEWAL SURVEY IN ACCORDANCE WITH ART. 14 OF THE CONVENTION.

(Port)

Helsingfors

(Date)

29 August 1934

I have to report that I have surveyed the

Steamer

"Luga"

of

Lovisa

O.N.

374.

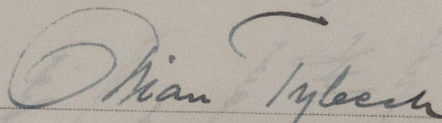

on this date.

I have compared the arrangements on board the ship with those given in the original freeboard report and I have found them to be in agreement therewith or equivalent thereto, and the whole to be in efficient

condition. The old openings in the bridge after bulkhead permanently closed and the bulkhead provided with two hinged wood doors 1370 x 600 mm, 35 mm thick and sill 480 mm. All damaged bearing surfaces for fore and afters and the wood fore and afters are to be renewed where damaged. The hatch covers of No. 3 and 4 hatch ways are to be renewed. The freeboard has been verified as seen on the attached freeboard verification form.

Notation No 1-33
Record 4-33

The freeboard marking has been verified and found to agree with the freeboards given on certificate No. 27 Oct. 1932. which is returned herewith.

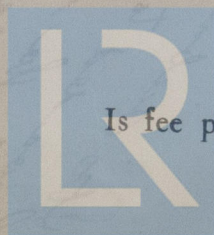

Surveyor to Lloyd's Register.
