

by Chief Ship Surveyor 28.10.15

Received from Chief Ship Surveyor

L'S NAME

Steels Galacum

Rpt.

Bw

No. 1650

remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

of Survey

1st Entry.

It is submitted the Glasgow Surveyors be informed this vessel has proceeded to their port where the machinery is to be fitted onboard and that to complete the Survey the Engine & Boiler casing requires to be riveted up, and they should be requested to give the casing the necessary attention, and to forward in due course a report on form 8, in order that the vessel may be placed before the Committee for classification.
