Shipbuilding Yard,
Workington 8th Sept 1915

Messrs Lloyds Register of Shipping,
Ramsden Square,
Barrow in Furness.

Dear Sirs,

Referring to the chain cable for our S.S.No 224,
we find the total weight of the chain on the certificates is
125. 3. 14 whereas your Rules require 126. 1. 0. We will be
pleased if you will pass this small discrepancy.

We may mention we have had the greatest difficulty to get
these chains from the Makers which has delayed launching the
vessel already two or three weeks, and to get the Makers to
replace any of the cable would mean further serious delay.

We hope this will receive the favourable consideration of
your Committee.

Yours faithfully,

B Williamson & Son.
