Dear Sirs,

This vessel will we expect drydock in London  
this week and we would like her measured for freeboard should  
she dry dock.

We enclose a plan shewing the air pipes forward  
from our records the air pipe for the main tank was a casting  
 $\frac{1}{2}$ " thick and 12" high , we propose to fit these with wooden  
plugs.

The wash ports on Raised Quarter deck will be  
fitted according to plan enclosed.

Our Mr R. Williamson will be in London on Wednes-  
day and will give you particulars of what is arranged about  
drydocking.

Yours faithfully,

FOR R. WILLIAMSON & SON, LTD.
