31 MAY 1946

Lloyd's Register of Shipping

International Convention 1930 Respecting
Load Lines.

Renewal Survey in Accordance with Art. 14
of the Convention.

(Port) Rotterdam,

(Date) 7th of May 1946.

I have to report that I have surveyed the Steam Tug
"SCHELDE" of Rotterdam O.N. -----
on this date.

I have compared the arrangements on board the ship with those
given in the original freeboard report and I have found them to be in
agreement therewith or equivalent thereto, and the whole to be in
efficient condition. The Special Survey has now been partly held
and the vessel will be recommended to be continued as classed
and to have notation for S.S.Rot.5-46 when the survey has been
completed.

The original freeboard certificates have been transmit-
ted to the Netherland Authorities and new certificates have been
issued by them extending until the end of the year of grace
allowed for the next Special Survey ultimo May 1951.

The freeboard marking has been verified and found to agree
with the freeboards given on certificate ~~No. xxxxxxxxxx~~ issued by the
Netherland Authorities.
~~which is returned herewith~~

Surveyor to Lloyd's Register.
