"Lady Connaught"

$$324.7 \times 41.5 \times \begin{cases} 25.17 \text{ to } 25.42 \\ 17.92 \end{cases}$$

It is submitted a copy of the Glasgow letter be sent to the S. S. Dept. together with the plans of midship section & profile ^{report on proposed alterations} ~~drawings~~. They should be advised that the draughts as a standard full cranthy flush deck & standard CSS vessel are respectively 20.93 feet and 17.78 feet. The depth D has in each case been taken as 25.92 feet although the maximum moulded depth of the ship is 25.42 feet. The Glasgow Office should be advised of the action taken, & should forward full particulars of the alterations which will affect the full draft on Rpt. C. 11 (Contd.).
