

WARD REPORT on the s.s. "LOCH ETIVE"

It is submitted the Freeboards given on the accompanying form, being those required by the Tables, merit approval.

subject to:-

(1) Efficient closing appliances being provided for all ventilators and air pipes where same are not already on board.

(2) Fastening arrangement to forward companionway being repaired as necessary.

(3) Efficient battening arrangements being fitted to the hatch on the casing top.

As the Convention freeboards are in excess of those at present assigned, the latter have been reassigned.
